

ADDISON PANTHER ATHLETICS

Thursday, February 18, 2021

Good Morning Addison Panther Community,

The Addison Panther Athletic Department and the varsity wrestling coaching staff is announcing that our high school wrestling program is going to take a voluntary shut down for the next ten days. This is a proactive move to get out in front of a few positive tests from within the program and to do what we feel is best to limit the number of students and athletes that could be in contact and or exposed.

The antigen testing program is unique to wrestling this season, and is very demanding on our student athletes. It is our intention that this move will limit the number of positive tests in the future and continue to allow our wrestling program to move forward with the unique 2021 season upon its return.

If you have any questions regarding this temporary shutdown, please contact coach Tom Schneider t.schneider.fsu@gmail.com or athletic director Joshua Lindeman joshua.lindeman@addisonschools.us.
